

WHO WE ARE

Amoveo is an Australian owned modular building company. Amoveo's experience results in an understanding of remote deployment, large projects, community sensitivities and compliance requirements.

COMPANY CAPABILITIES

We invest
in finding **solutions**
that meet our
Customer's needs

PRODUCT RANGE

Amoveo's units are robust, superior in design, aesthetically engaging and utilise space effectively. Our range includes:

- Homes
- Mining Accommodation
- Mine Camp Accommodation
- Mine Camp Facilities
- Commercial Site Facilities
- Infrastructure Products

FINANCIAL CAPACITY

Amoveo's global financial and manufacturing partners offer Amoveo flexibility to innovate and customers the peace of mind that projects large and small can be achieved on time.

DESIGN

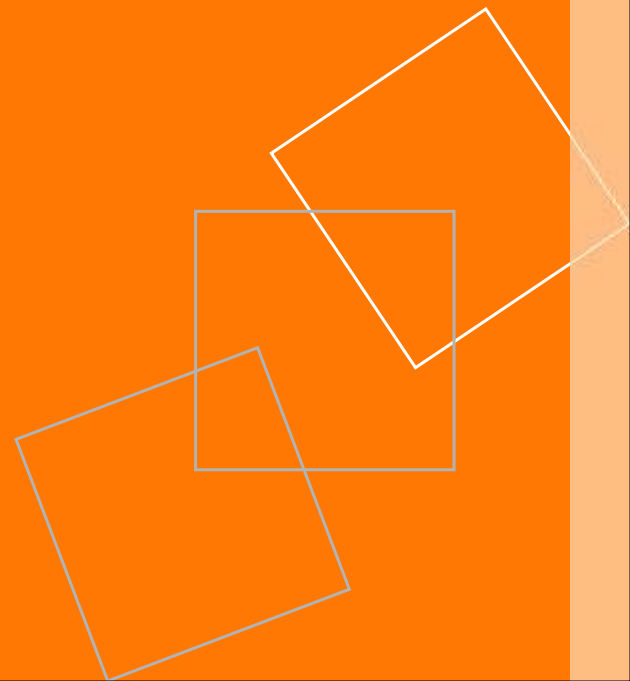

- Designed with the end-user in mind
- Customisation options
- Well planned & robust
- Cost-effective
- Easy to transport & install
- Contemporary interior
- Beautiful facades

MANUFACTURING

Amoveo project manages and supervises all stages of production including design, documentation, procurement, manufacture and delivery. Units are produced to Amoveo's specifications, ensuring the highest standards in quality and compliance are maintained. Large manufacturing capacity and extensive manufacturer Quality Management Systems are in place including ISO 9001 and ISO 14001.

VISION

To provide transportable buildings to remote locations, that can be commissioned quickly on site. To be leaders in the design and manufacture of buildings that are robust; ergonomically superior; environmentally sustainable and efficient in design and material usage.

wise move

COMPLIANCE

- Local/regional requirements designed for
- Structural, thermal and chemical testing for each unit
- Cyclone tested to 320km/h for Region D wind areas
- Site-specific requirements implemented as required

HEALTH AND SAFETY

Amoveo meets customer's health and safety requirements through consultation with local authorities. Latest trends are constantly monitored to manage this important requirement.

LOGISTICS

Amoveo's units are delivered to the nearest Shipping Port typically within 12 - 15 weeks of purchase, from which the onward transport of units can be organised. Based on ISO standard sized modules, the modules are easily transported by ship, truck, train and plane.

INSTALLATION AND MAINTENANCE

Amoveo's distribution network and qualified Installers, are able to install and maintain units. Installation is quick and easy with minimal need for on-site labour.

PRODUCT QUALITY

Amoveo's units are manufactured from 'the ground up' so they're new, not recycled. The robustness of all the materials used is second to none. All interior design features are high quality and long lasting.

WE CHALLENGE OURSELVES
TO INNOVATE AND DEVELOP
ALTERNATIVE SOLUTIONS
